PROFILE

Passionate Full Stack Developer and Computer Science student specializing in Cybersecurity with strong problem-solving skills and deep interest in Data Structures and Algorithms.

Skilled in building modern web applications and exploring innovative ideas through creative development ("vibe coding"). Enthusiastic about developing impactful software solutions and continuously learning new technologies.

EDUCATION

B.Tech in Computer Science (Cybersecurity) 2024 – 2028
VIT-AP University
CGPA: 8.42

Intermediate (12th Grade) 2022 – 2024
Narayana Educational Institutions
Percentage: 72%

EXPERIENCE

Full Stack Developer Intern Dec 2025 – Present
Prayana Electric

- Developing modern web applications and interactive user interfaces.
- Working on smart mobility and IoT-based web platforms.
- Designing responsive and user-friendly web experiences.
- Collaborating on innovative technology solutions.

TECHNICAL SKILLS

Programming Languages

- HTML, CSS, JavaScript, Java, C, C++

Web Development

- Full Stack Development
- Progressive Web Applications (PWA)
- Responsive Web Design

Databases

- MongoDB
- Supabase

Core Concepts

- Data Structures and Algorithms
- Problem Solving
- Cybersecurity Fundamentals

PROJECTS

Excel Filter Pro — Progressive Web App

- Developed a full-stack data processing Progressive Web Application for filtering, cleaning, and analyzing Excel and CSV datasets.
- Implemented 25+ features including regex filtering, duplicate removal, interactive charts, and multi-format export.
- Designed an offline-first architecture using service workers with dark mode and responsive UI.
- Optimized performance to efficiently process datasets with over 100,000 rows.

Developer Portfolio Website

- Designed and developed a modern personal portfolio website.
- Showcases projects, skills, and technical experience.
- Built using modern frontend technologies.

ACHIEVEMENTS

- State Level Engineering Entrance Examination (APEAMCET) Rank: 4118

STRENGTHS

- Strong Vibe Coding Ability – Able to rapidly build innovative and creative software solutions.
- Excellent Problem Solver – Strong foundation in Data Structures and Algorithms.
- Fast Learner – Quickly adapts to new technologies and frameworks.
- Innovative Thinker – Enjoys building unique and impactful projects.
